- Qn max. 2500 l/min
- Electrical control
- · Pneumatic control
- Width: 42 mm, 56 mm

Series IS12, size 1

The AVENTICS Series IS12 complies with the valve standard ISO 5599-1. The Series offers electrically controlled ISO valves of size 1 and 2 with Form A or central M12 connectors.

Compressed air connection pilot input	Base plate ISO 5599-1
Compressed air connection pilot exhaust	Base plate ISO 5599-1
Basic valve equipment	Basic valve without coil
Frame size	ISO 1
Min. control pressure	1 bar
Max. control pressure	10 bar
Min. ambient temperature	-10 °C
Max. ambient temperature	50 °C
Min. medium temperature	-10 °C
Max. medium temperature	50 °C
Medium	Compressed air
Max. particle size	5 µm
Min. oil content of compressed air	0 mg/m³
Max. oil content of compressed air	5 mg/m³
Protection class with connection	IP65
Compatibility index	52
Duty cycle	100 %
Typ. switch-on time	16 ms
Typ. switch-off time	16 ms
Mounting screws	M5 with hexagon socket
Mounting screw tightening torque	2.2 Nm
Weight	0.33 kg
Housing material	Polyamide
Seal material	Acrylonitrile butadiene rubber
Material front plate	Polyamide
Part No.	0820024452

Technical information

ATEX optional: ATEX version can be produced by combining the basic valve without coil with an ATEX coil. ATEX ID: see ATEX coils catalog page.

The min. control pressure must be adhered to, since otherwise faulty switching and valve failure may result!

The pressure dew point must be at least 15 °C less than ambient and medium temperature and may not exceed 3 °C.

The oil content of compressed air must remain constant during the life cycle.

Use only the approved oils from AVENTICS. Further information can be found in the "Technical information" document (available in https://www.emerson.com/en-us/support).
