5/2-directional valve, Series ST 0820030055

Series ST

The AVENTICS Series ST offers a comprehensive range of spool valves with hardened stainless steel housing. The metal sealing system ensures their extended service life independent of the air quality. Its electrical, pneumatic, or mechanical actuating controls (roller, lever, pedal, pushbutton or plunger) make the ST Series ideal for demanding industry applications and panel installation.

Electrical connection type Electrical connection size Protection class with connection Operational voltage Operational voltage DC Voltage tolerance DC	Plug ISO 15217, form C IP65 12 V DC 12 V -10% / +10%
Pilot	Internal
Pilot valve width	15 mm
Power consumption DC	2 W
Duty cycle	100 %
Typ. switch-on time	15 ms
Typ. switch-off time	20 ms
Min. ambient temperature	-10 °C
Max. ambient temperature	50 °C
Min. medium temperature	-10 °C
Max. medium temperature	50 °C
Medium	Compressed air
Min. oil content of compressed air	5 mg/m³
Max. oil content of compressed air	25 mg/m³
Max. particle size	5 µm
Mounting screws	M4 with hexagon socket
Mounting screw tightening torque	2.5 Nm
Tightening torque tolerance	±0,5
Weight	0.27 kg

Technical information

Notice: This product may only be operated with oiled compressed air.

The min. control pressure must be adhered to, since otherwise faulty switching and valve failure may result!

The pressure dew point must be at least 15 °C less than ambient and medium temperature and may not exceed 3 °C.

The oil content of compressed air must remain constant during the life cycle.

Use only the approved oils from AVENTICS. Further information can be found in the "Technical information" document (available in https://www.emerson.com/en-us/support).
