3/2-directional valve, pneumatically operated, Series NL2-SOV

0821300921

General series information Series NL2

■ The AVENTICS Series NL maintenance units are suitable for all areas: as individual components or as assembled maintenance units, for centralized or decentralized compressed air preparation, in compact or powerful versions, for use in high or low temperatures. This line offers a complete, customizable compressed air preparation technology. It includes an option to combine every component in the Series to achieve the desired function, making it possible to adjust the components precisely to the application requirements.

16 bar

-10 °C

Max. ambient temperature 60 °C

Medium Compressed air

Neutral gases

Max. particle size $5 \mu m$ Compressed air connection, exhaust G 1/4

Nominal flow Qn 1 to 2 1100 l/min Nominal flow Qn 2 to 3 450 l/min Weight 0.4 kg

Material

Housing material Die cast zinc

Seal material Acrylonitrile butadiene rubber Material, front cover Acrylonitrile butadiene styrene

Part No. 0821300921

Technical information

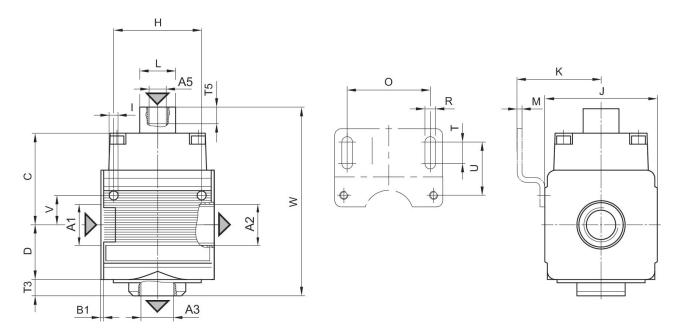

The pressure dew point must be at least 15 $^{\circ}$ C under ambient and medium temperature and may not exceed 3 $^{\circ}$ C .

Nominal flow Qn with secondary pressure p2 = 6 bar at Δp = 1 bar

A change in the flow direction (from air supply on the left to air supply on the right) occurs by rotating installation by 180° about the vertical axis. Please see the operating instructions for further details.

Dimensions

A1 = input A2 = output

A3 = ventilation port

A5 = Control pressure connection

Dimensions in mm

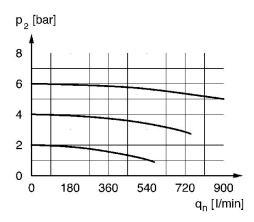

Part No.	A1	A2	A3	A5	B1	С	D		Н
