## AVENTICS Series AS5 Air Preparation Units

The AVENTICS Series AS5 is a modular, versatile maintenance unit for universal application. This Series offers compact dimensions, is highly efficient, lightweight and easy-to-use. The AVENTICS Series AS guarantees reliability, safety, and efficiency with a simplified assembly and maintenance efforts.

R412009307

Pressure supply	single
Mounting orientation	vertical
Regulator type	Diaphragm-type pressure regulator
Regulator function	with relieving air exhaust
Filter element	exchangeable
Filter reservoir volume	87 cm <sup>3</sup>
Max. achievable compressed air class acc. to ISO 8573-1:2010	6:7:-
Lubricator reservoir volume	181 cm³
Type of filling	Semi-automatic oil filling during operation Manual oil filling
Medium	Compressed air Neutral gases
Weight	1.83 kg
Material	
Housing material	Polyamide

Polyamide
Acrylonitrile butadiene rubber
Acrylonitrile butadiene styrene
Die cast zinc
Polycarbonate
Polyamide
Polyethylene
R412009307

#### **Technical information**

The pressure dew point must be at least 15 °C less than ambient and medium temperature and may not exceed 3 °C.

Note: Polycarbonate reservoirs are susceptible to solvents, supplementary information can be found at "Customer information".

Nominal flow Qn with secondary pressure p2 = 6 bar at  $\Delta p = 1$  bar

A change in the flow direction (from air supply on the left to air supply on the right) occurs by rotating installation by 180° about the vertical axis. Please see the operating instructions for further details.

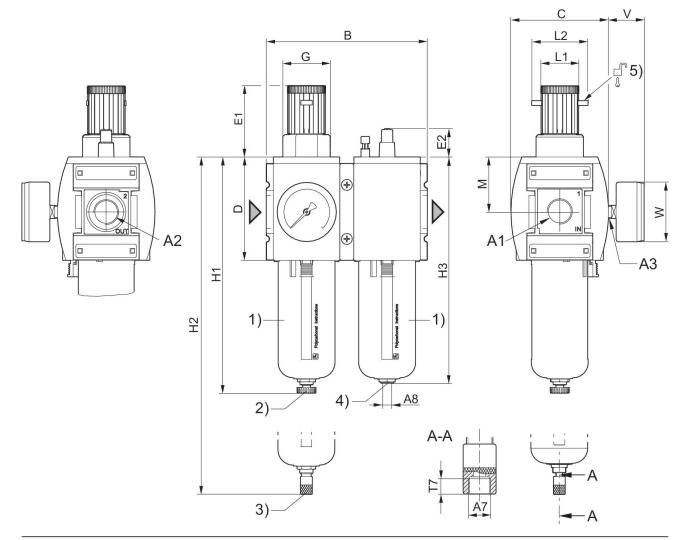

Also suitable for separation of fluid oil or water due to the design.

#### Dimensions

A1 = input A2 = output A3 = pressure gauge connection

A7 = condensate drain

1) Plastic reservoir and protective guard with window

2) Semi-automatic condensate drain

3) Fully automatic condensate drain

4) Port for semi-automatic oil filling5) Mounting option for padlocks, max. shackle Ø 8
