

## AVENTICS Series TU1 Compressed air tubings

AVENTICS Series TU1 offers a broad range of plastic materials and colours to fit with your tubing application and easily identify your pneumatic circuit. TU1 Tubing are suitable for dynamic laying and offers a wide range of working environments including versions for the food industry.

## Technical data

|                                   |                             |
|-----------------------------------|-----------------------------|
| Industry                          | Industrial                  |
| Note                              | suitable for dynamic laying |
| External Ø                        | 6 mm                        |
| Wall thickness                    | 1 mm                        |
| Bending radius min. at 20 °C      | 30 mm                       |
| Color                             | Natural                     |
| Min. ambient temperature          | -40 °C                      |
| Max. ambient temperature          | 80 °C                       |
| Max. working pressure at [[20]°C] | 24 bar                      |
| Delivery unit length              | 100 m                       |
| Weight per meter                  | 0.011 kg                    |
| Material                          | Polyamide                   |
| Part No.                          | R412009905                  |

## Technical information

External calibrated

Halogen-free

Excellent hydrolysis characteristics

Suitable for dynamic laying

Excellent UV resistance

Resistant to microbes
