

# Extension kit, combination plate, Series AV

## R412022591

### Technical data

Industry  
Industrial

Type  
Base plate

Type  
Supply plate, connection 1, separate pressure zones in channels 1/3/5

Valve system version  
Multipole

Scope of delivery  
Combination module, right end plate AV05, screws, and seal

Working pressure min.  
-0.95 bar

Compressed air connection input  
Ø 3/8"

Pilot connection  
Ø 3/8"

Working pressure max  
10 bar

Min. ambient temperature  
-10 °C

Max. ambient temperature  
60 °C

Medium  
Compressed air

## Material

Housing material  
Aluminum  
Seal material  
Nitrile rubber

Part No.  
R412022591

## Technical information

When using polyurethane tubing, we recommend using additional stiffener sleeves.

For push-in fittings, only use plug accessories made of plastic (polyamide) from our catalog.

The min. control pressure must be adhered to, since otherwise faulty switching and valve failure may result!

The pressure dew point must be at least 15 °C under ambient and medium temperature and may not exceed 3 °C .

The oil content of compressed air must remain constant during the life cycle.

Use only the approved oils from AVENTICS. Further information can be found in the "Technical information" document (available in <https://www.emerson.com/en-us/support>).
