# Sensor, Series ST6

R412022850

General series information AVENTICS Series ST6 Magnetic proximity sensors

■ The AVENTICS Series ST6 sensors are suitable for mounting in the 6 mm Tslot as well as sensor mounting to the cylinder. They are suited for mounting to all AVENTICS round cylinders, tie rod cylinders, and profile cylinders. With their optimized, compact shape, the sensors can be flush-fit into existing slots and integrated into any machine environment, even with sensor mounting. Retaining ribs on the side of the sensor enable simple mounting, including in hard-to-reach locations or for overhead assembly. The durable mounting screw holds the sensor in the desired position and can withstand shocks or vibrations.

#### Technical data

Industry Industrial Direct mounting for series PRA

PRE CCI

KPZ SSI

GPC CVI

Indirect mounting for series TRB

CVI
TRB
ITS
CCL-IS
MNI
CSL-RD
RPC
ICS-D2
ICM
KHZ
TRR

Slot width 6 mm T-slot
Cable with cable

Type of contact NPN

Nominal current, actuated state < 30 mAQuiescent current (without load) < 8 mAHysteresis  $\geq 0.2 \text{ mT}$ 

Certificates CE declaration of conformity

cULus RoHS

UL (Underwriters Laboratories)

Protection class IP65

IP67 IP69K -30 °C

Min. ambient temperature-30 °CMax. ambient temperature80 °CVoltage drop U at Imax≤ 2,5 VDC switching current, max.0.13 AMax. switching frequency1000 HzSwitching point precision $\pm 0,1 \text{ mT}$ 

Switching logic NO (make contact)

LED status display Yellow

Electrical connection 2, type open cable ends

Electrical connection 2, number of poles 3-pin
Operating voltage DC, min. 10 V DC
Operating voltage DC, max. 30 V DC

Short circuit resistance short circuit resistant

Protected against polarity reversal

Shock resistance 30 g / 11 ms Vibration resistance 10 - 55 Hz, 1 mm

Cable length L 5 m

#### Material

Housing material Polyamide

Material cable sheath Polyurethane

Material locking screw Stainless Steel

Part No. R412022850

### **Technical information**

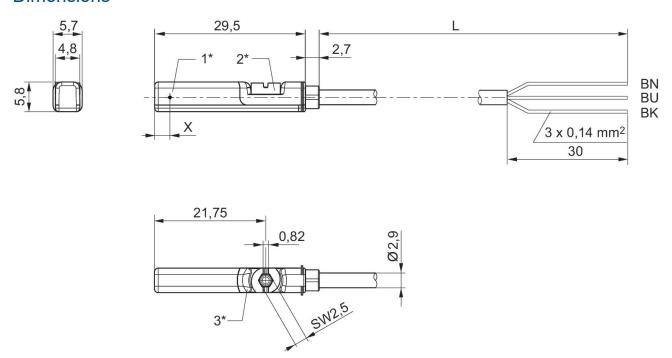

No cULus certification for 230 V variant.

The pressure dew point must be at least 15 °C less than ambient and medium temperature and may not exceed 3 °C.

The oil content of compressed air must remain constant during the life cycle.

Use only the approved oils from AVENTICS. Further information can be found in the "Technical information" document (available in https://www.emerson.com/en-us/support).

## **Dimensions**

 $<sup>1^*</sup>$  = switching point  $2^*$  = locking screw  $3^*$  = LED window, transparent L = cable length BN = brown, BK = black, BU = blue X = electronic: 11.6 mm
